Category	Score (X / 5)	Notes & Commentary from Officials
Site assessment and creation of plan	4.5	Awesome site assessment and job plan Good communication with 911 Delegated responsibilities. Bees and dead limb identified. Good tree inspection. Excellent 911 call. Good detail to EMS. Identified the hazardous limb and creation of safe zone. Nice touch of being able to hear the 911 operator!
Contacted emergency services; quality of explanation and info provided	5.0	
Efficiency, speed, and safety	4.5	Fantastic ascent and plan and execution assessment was constant Smooth ascent. Continued comms. Good interaction with team.
Continued inspection and assessment	4.3	
Identification of hazards	4.5	Didn't do anything to the limb but talked about it and planned around it Avoiding the aerial hazards was their mitigation plan. Nice move Working aloft directly under dead limb and bees. Jostling casualty, rough handling. Identified the hazardous limb and avoided it.
Method and execution of mitigation	3.8	
Assessment of casualty situation	3.5	Good patient care. Mostly just wanted to get them to the ground nice packaging Some assessment upon ascent. No first aid or packaging, but in this scenario speed of extraction paramount. Not much of an assessment in the tree.
Administration of first aid & assessing of urgency	3.8	
Adequate and appropriate stabilization of casualty for transport	3.8	
Choice of system and technical execution of casualty support/tie in	4.0	Mostly centered on speed. Could have handled the patient a little less rough The handling was good. I liked the closeups of the climbing systems. Struggling with connection to casualty. Holding on with hand/arm after initially disconnecting speedline carabiner. Efficient access and lowering, good attempt at controlling on the way down.
Quality of transport for the casualty	3.8	
Quality of transition from suspension to injury appropriate position on ground	4.0	So glad to see them lower the patient away from under the dead limb Landing was good but they left the victims side. Very little clutter. Good job moving casualty away from dead limb drop zone. Support given to casualty on ground. Good EMS interaction. Not much attention paid to positioning of injured, good communication with EMS on site.
Care of site, scene, and equipment	4.3	
Transition of care to EMS	4.8	
Communicating the plan	4.5	Excellent communication through out the whole rescue Good communication with Paul, team and EMS Good team comms. Light casualty comms. Good overall plan and communication of it. Good job of trying to communicate with the injured during the rescue.
Communicating the hazards	4.0	
Communicating with, for, and about the casualty	4.3	
Reaction	4.0	Awesome job!! Loved the EMS showing up!! Great job and excellent plan and communication! That was fun ti watch! felt rehearsed but they are technicians not actors. Excellent role play with 911 call. Overall good role play God job overall.
Planning	4.3	
Overall Realism	4.0
